Antilles School is a member of the Caribbean Association of Independent Schools (CAIS), the National Association of Independent Schools (NAIS) and is fully accredited by the Middle States Association of Colleges and Schools. It holds membership in the College Board and the National Association for College Admission Counseling and the Southern Association of College Admission Counseling.

Antilles School opened its doors on October 4, 1950 in historic Villa Santana, overlooking St. Thomas' Charlotte Amalie Harbor. The driving force during the school's early years was the founding head, Deborah Finch, whose educational aims were embraced in a five-point program focusing on each child's physical, academic and creative development, along with their social and emotional growth. This philosophy has been our guide for the past 68 years.

Grades 9-12

Upper School Profile

Antilles is a Toddler-12 college preparatory school on St. Thomas in the U.S. Virgin Islands. We serve a diverse community of learners and inspire individual excellence in a collaborative setting, while empowering each student with the academic and life skills needed to become engaged, intentional citizens able to transition from a small island to some of the biggest cities in the world.

At Antilles, students from nearly every cultural and economic background call our campus home. Along with providing a challenging curriculum that prepares students for acceptance to the nation's top universities, we also help shape their physical, emotional and intellectual well-being. All courses are focused on core college preparatory material and skills but also allow students to engage at their own pace, and at a greater depth.

Our school is situated on 27 acres on St. Thomas' south side and our state of the art facilities – an on-campus, theater, library, gymnasium, and laboratory areas – offer the opportunity for deeper learning and give our students a competitive edge upon acceptance to four-year accredited colleges and universities. With close proximity to beaches, nature preserves, and historical landmarks, students are able to take advantage of off-campus learning opportunities under the water, in lush forests, up mountain peaks, and across rich agricultural farm grounds.

Our student faculty ratio is 7:1. Small class sizes allow for an individual student-teacher connection, while also enhancing student interaction. We challenge our learners to collaborate, to lead, to share decision-making, and to be mindful of the world around them. Our students are active in student government, clubs, and athletics, but are also deeply involved in community organizations, volunteer efforts, and relief drives.

Grading & Ranking
